Job Description

Datapoint is seeking a Survey Instrument Technician that can assist with oil & gas market land and route surveying in the Permian Basin. Past survey experience is preferred, but not required. This is a great entry-level position for those with a good work ethic and interest in the land surveying industry who would appreciate the opportunity to join, learn, and develop with our growing team.

Required Qualifications

- Valid DL with clean driving history
- Prompt and accountable
- Willingness to learn and work well in a team setting
- Familiarity with electronics & precision instrumentation
- Basic knowledge of the land survey profession
- Must be able to safely work outside in potentially extreme weather conditions
- Flexible schedule to handle heavy workloads as needed, with ability to travel daily and occasionally overnight, up to 50% travel throughout Hobbs, NM area, West, TX, to East, TX office and job sites

Key Responsibilities

- Assist Party Chief in execution of a variety of survey & staking scopes
- Assist in maintenance and proper care of fleet vehicle, survey equipment, and other company property
- Assistance in crew inventory
- On the job training daily with utilized software, hardware, equipment, geomatics, and mathematics
- Potentially physically demanding tasks related to a variety of scopes of field surveying

Benefits

- Insurance: Health, dental, and vision insurance, HSA plan option, and AD&D policy. Details for coverages and included in company enrollment form to be provided during interview process
- Generous PTO accrual and roll over. No delayed vesting of accruals.

- Holiday Pay: Regular salary pay received on the following company holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Friday after Thanksgiving Day, Christmas Day
- Annual bonus structure based on company and individual performance
- Commission incentives
